

# ⚓ WITH THE PURCHASE OF THIS CLOCK YOU HELP TO SAVE LIVES!

The clock shows the logo of the German maritime SAR organization – and not without reason. Because for decades, this clock has been a reliable ‘partner’ of the rescuers on board and, with its green and red radio sectors or radio silence times, it is a reminder of the time when the sea rescuers were still called by radio.

Help them! So that someone is always on hand if you are in distress at sea!
